

*February 2018. Newsletter Issue 1*

## **2017 HIGHLIGHTS**

2017 has been a very busy and successful year for us taking on 260 projects, across the country.

The last six months has seen the company grow substantially.

**Did you know?** We are on the lookout for a Senior Geotechnical Engineer to join our Manchester team - if you know of anyone who wishes to work with a dynamic and exciting company please get them to get in touch.

Welcome to the first of GEOCON's newsletter. Issued regularly it will inform you of what we're up to, how to get in touch and other breaking news.

2018 is well under way and looks to be a good one so far with lots of exciting and interesting projects on our books

**Who are we?** We are at the forefront of the industry, providing geotechnical and environmental site investigation services across the whole of the UK.

Our team are experts in their respective fields. This expertise, together with a comprehensive range of services enables us to design and deliver tailored solutions that fulfil our clients need and satisfy regulatory requirements.

We work across many sectors incorporating residential, commercial and industrial developments, flood defence, renewables, tunnels, infrastructure including highways, bridges, rail and tramway networks.

We have our clients and their project's best interests at heart which means that we design and tailor an approach that delivers a complete solution.

*Whilst we continue to deliver into our core markets we have gained more larger scale projects further extending the scope and range of services we now offer.*

## Other news:

---

- *We are in the process of updating our SGV's to encompass the latest Atkins values, which will be introduced as soon as possible.*
- *Keep an eye out for our new brochure in your inbox!*
- *We are currently updating our social media sites - we will keep you updated.*

## Meet the team:

---

### **Andrew Dickinson- Principal Engineer-Head of Environmental.**

Andrew joined us in Feb 2017. He has thirty years' experience in Environmental site investigation and consultancy. He has brought this to GeoCon to extend the breadth of skills and knowledge to the team in the environmental sector. He is an experienced professional having worked on numerous projects of all sizes in various fields. Part of his role is Business Development, so you may be hearing from him in the future.

## 2017 Highlights:

---

- GeoCon were instructed by GVA to carry out a due diligence site investigation on a former HM Government property in London.
- Waterman IE instructed GeoCon to undertake a combined geotechnical and geoenvironmental ground investigation on a proposed shopping centre development in Hertfordshire.
- Kier appointed GeoCon on behalf of the EA to carry out site investigations at four locations across the UK for new flood defence schemes and the installation of fish ladders, the biggest in Europe.

- BNM Alliance-comprising Barhale and North Midland Construction on behalf of Severn Trent water, instructed GeoCon to undertake ground investigations for proposed tunnels to upgrade their infrastructure.
